LAKE BUENA VISTA, Fla. -- General Motors yesterday greeted the one millionth visitor to its World of Motion Exhibit in EPCOT Center since the new International Exposition opened on Oct. 1 here at Walt Disney World.

General Motors is the first of the six major industrial exhibitors in the Walt Disney's Prototype futuristic community to announce its first millionth guest. The World of Motion consists of a 14 1/2 minute chair ride through 23 animated scenes that trace man's progress in improving transportation and "Transcenter," an inside look at GM's advanced motor vehicle design, engineering, and manufacturing techniques.
